

## Sheet 2 : To create and play a problem situation based upon a place

**Instruction 1 :**

*From the place that was assigned to you, write a problem situation that involves the stereotypes between girls and boys.*

*Your story will be in three steps (beginning, middle, end, marked by a "freeze frame"). It should make it possible to understand the place, the time, the action, the characters.*

*You then play this sketch, taking into account the public.*

**Instruction 2 :**

*For each represented sketch, note the stereotype girl or boy identified.*

*Also indicate the points of the theatrical play to improve.*
